THERAPEUTIC MENTORING

WHO WE ARE?

We are *educators* driven to help youth achieve mastery of self through mentorship. Our purpose is to teach, listen, and model the skills and dispositions needed for youth to take ownership of their lives. Let us show you what our team of qualified mentors can do for young people in your community.

WHAT WE DO?

Zoom Focus Academy founders are passionate about all youth. We believe that we have a unique opportunity to partner with youth and families to show youth that there are representatives in this state who value them and "see" them. We understand their circumstances and have learned valuable lessons about perseverance, scholarship, and living a life filled with purpose that we believe are vital to individual success.

"MENTORING" TAB & FILL
OUT THE REFERRAL**

MENTORS ARE KEY

We believe that relationships set the stage to tackle life's difficulties. Having someone in your life to guide and mentor you through challenges, is a recipe that changes outcomes.

WEEKLY SESSIONS

We've created a set of modules to teach the skills to achieve 'mastery of self'. Each week we will complete a lesson tailored to the unique experiences of youth with the goal being acquiring deep understanding of academic and non-academic growth measures.

PRICING

\$60 PER HOUR
(currently not accepting insurance)
